Comment : Thank you for taking my comments.

As a volunteer at a LPFM, I have come to know some of the challenges we face. You can make changes to help LPFM stations serve local audiences. Please do! I've include my requests and suggestions below.

I support the FCC's position on getting rid of the obsolete regulation of ☐third adjacent channel ☐ spacing.

I support FCC efforts ☐to increase the number of LPFM stations on the air and strengthen the viability of those stations that are already operating. ☐

A ☐non-local ☐ station (WIMZ of Knoxville) is creating massive interference for our local WPVM-LP due to the unique contours of our mountainous terrain. We need your help, FCC!

LPFM stations, especially those in challenging mountainous terrain, should be permitted to own translators.

LPFMs have returned local voices to local communities. Thank you for creating rules to create LPFMs. Now please take action to strengthen and support existing and additional LPFMs.
